Numb. 4437

The Daily Gazetteer.

THURSDAY, APRIL 14. 1743.

Rome, March 30.

IS Holineſs, on the 24th, performed the Ceremony of conſecrating a Roſe, which is annually ſent as a Preſent to ſome Princeſs. The ſame Day the Count de Thun, her Hungarian Majeſty's Miniſter, had a long Audience. The next Day, being Monday, his Holineſs officiated publickly, and afterwards 340 young Women were admitted to kiſs his Feet, to each of which he afterwards gave a Portion. In the Afternoon he ſent for the Heirs of Cardinal Cibo, from whom he deſired the famous Collection of Manuſcripts made by that Prelate; and having receiv'd them, he return'd a very conſiderable Preſent.

Naples, March 26. The Queen, who has enter'd into the 9th Month of her Pregnancy, continues as well as could be wiſhed. There arrived, on the 22d of this Month, two Couriers from Spain. We are ſince inform'd, that there is at Barcelona a conſiderable Body of Troops, which are ſpeedily to embark for Italy. It is alſo reported, that one of theſe Couriers alſo brought Diſpatches from the Queen of Spain, in which ſhe ſtrongly ſollicits his Majeſty to ſend his Forces inſtantly to join thoſe of M. de Gages. She beſeeches him, on this Occaſion, not to ſuffer himſelf to be influenced either by the Threats or Promiſes of any Power whatever; but paſſionately exhorts him to repay, by his Readineſs to aſſiſt the Spaniards in this critical Conjuncture, the Pains and Expences they were at to eſtabliſh him in his Dominions. Theſe Diſpatches have exercis'd the Thoughts of our Miniſtry exceſſively, and before they came to any Reſolution, a Courier arrived from M. de Gages, and after him an Expreſs from Gaeta, with Advice that two Engliſh Men of War had been ſeen near the Coaſt.

Leghorn March 30. The Crew of the St. Iſadore that eſcaped when ſhe was burnt, have been tranſported hither. They inform us, that the whole Iſle of Corſica is in the utmoſt Confuſion. All the common People are unanimouſly for King Theodore, but their Chiefs are, or at leaſt ſeem to be, of another Mind; and yet even theſe have declar'd againſt the Genoeſe, whom they keep conſtantly block'd up in their Fortreſſes. Some Engliſh Men of War are yet on the Coaſt, but the Artillery that Baron Neuhoff expects, is ſaid to be ſhipp'd on board a Dutch Ship.

Faenza, March 31. The Spaniſh Army arrived here on the 27th, with 12 Pieces of Cannon, 282 Mules laden with Powder, and 30 Waggons. According to the beſt Computation we can make, they are about 6000 ſtrong. They were join'd on the 28th by two independent Companies. Laſt Night they beat the General, and this Morning early they began their March again, carrying off four of the principal Perſons of this City, and our Chief Magiſtrate. The Governor ſecured himſelf by a ſpeedy Retreat. Our Biſhop followed them, and on his Application to the Count de Gages, the Hoſtages were ſent back; but we were oblig'd to furniſh them with 32,000 Rations of Bread. Two Hours after the Army march'd, the Duke d'Atriſco followed with a Rear-Guard, conſiſting of 900 Horſe and 1500 Foot. Theſe Troops were exceedingly haraſſed, and the Deſertion ſince they left Bologna is prodigiouſly great.

Florence, March 30. The Electreſs Dowager Palatine has left by her Will two Strings of Oriental Pearl, worth 60,000 Crowns, to Prince Octavio de Medici, and 100,000 Crowns in Money, beſides ſome rich Effects, to Signior Nicolo de Medici. She has left a Jewel, worth 100,000 Crowns, to the King of Spain, and another of like Value to the King of the Two Sicilies. All the Silver Plate mark'd with the Arms of the Family, and a certain Quantity of Jewels, amounting in the Whole to 200,000 Crowns, to the Elector Palatine.

Cologne, April 16. Part of the Hanoverian Foot-Guards, and the Regiments of Campen and Ilten, paſſed here the 12th of this Month. The Regiments of Bergh, Roder, and Boſelager, arrived the next Day; but when they came to paſs the Rhine, the Bridge was carried away. Some Companies, upon this Accident, return'd hither, but moſt of them ſtaid till the Bridge could be repaired. Tho' the River was rapid enough to do this Miſchief, yet we have ſome Reaſon to ſuſpect that ſome People were employed in the Night to aſſiſt in breaking it, in order to retard the March of theſe Troops. The Companies that return'd hither, paſs'd the Rhine the Day before Yeſterday. They were follow'd early the next Morning by the Regiment of Horſe of Montigni, and this Morning that of Wreede paſs'd the Rhine. They are as fine Troops as can be ſeen, and there are very few Sick amongſt them.

To Persons of either Sex Afflicted with any Species of the PALSY, *or other* NERVOUS DECAYS.

NEVER were NERVOUS DISEASES, PALSIES, and PARALYTICK DISORDERS so frequent as of late they have been, nor have the usual Remedies been found adequate to those pertinacious Distempers: This occasioned a Physician, who employ'd his Thoughts much concerning them, to adapt a Medicine, *a Sovereign Elixir*, peculiar to, and effectual for, the Palsy, and all other nervous Complaints now reigning, which after he had experienced on vast Numbers of Persons of both Sexes, and always with surprizing Success, even so as infallibly to cure by it the Palsy, and all Paralytick Effects and Nervous Disorders, he permitted it to be made publick for a general Good, that so those labouring under these miserable Ailments, might know where to meet with a safe and most certain Cure, which it accomplishes in so short a Time, and with such Ease and Pleasure (a few Drops of it being a Dose, highly agreable to the Palate, and comforting to the Stomach and Bowels) as is almost incredible to relate.

But the taking one Bottle of it only, demonstrates its prodigious Efficacy to every one, and the Patients soon find all Numbness, Deadness, and Shaking, or Resolution of the Nerves, as well as all convulsive, cramp-like, or painful Contractions of them, vanish and return no more; and this, though these Diseases have been of many Years standing, and whether occasioned by long Illness, fast Living, hard Drinking, or any other Cause; for it performs all that can be wish'd for in Nervous Cases, creates an Appetite, expells Wind, rectifies the Digestion, occasions laudable Chyle, attenuates the Blood and Juices, causes a free and regular Circulation of 'em thro' the Capillary Vessels, revives and increases the Spirits, warms, comforts, strengthens, and replenishes the Brain and whole Nervous System, hence the Sinews, Tendons, Ligaments, and all the enfeebled Parts are invigorated, the Limbs restored to their pristine Steadiness and Strength, and the Palsy and all Paralytick Disorders and Nervous Decays suddenly cured by it, to the Admiration of the Patients themselves, and all about them.

This sovereign and incomparable Elixir is permitted to be sold only at Mrs. Holt's, at the *Cross-Keys and Star* below the Royal Exchange in Cornhill, London, at 3 s. 6 d. a Bottle, with printed Directions at large.

ANTI-SYPHILICON.

THE only short and most infallible Cure in the Universe for the VENEREAL DISEASE, from the slightest Infection to the most extreme and deplorable Degree of it, even when the Blood and Juices are thoroughly contaminated with its malignant Virus, and the very Bones are affected with it.

Fresh Infections, call'd CLAPS, with all their attendant Symptoms, tho' ever so severe, are entirely carried off by it in a few Days, and so as effectually to prevent the Blood and Juices from being tainted with any remaining Relicts on one Hand, or a seminal Gleet or Weakness to happen on the other.

And the most inveterate Degree of the French Illness, attended with Nocturnal Pains, universal Breakings out, and all the other most exasperated Symptoms, are soon overcome by it, and effectually and much more safely cured than by Salivation, Inungation, or any other Method whatever, and in so easy and pleasant a Manner, without impairing Strength, or occasioning any Inconvenience, as loudly to bespeak it the only apposite Remedy or true Venereal Antidote in the World; and this some Thousands have to their great Joy experienc'd.

It is pleasant to take, occasions no Sickness or Disorder, nor requires Confinement; but may be taken, and the Cure be accomplish'd, without the Knowledge of the nearest Friend.

Those who suspect they have received an Injury, may, by only a Dose or two of it, be perfectly freed from all Apprehensions; for it suffers no lurking Venom to lie hid in the Body, but wholly extirpates it Root and Branch, in a gentle, easy, and most effectual Manner.

All such likewise as doubt they have some remaining Relicts of former Injuries, may by a few Doses of it entirely free themselves from all Suspicion of that Kind; for it admits of no Foulness, Corruption, or Putrefaction whatever, to remain in the Fluids, or to adhere to the Solids; and on that Account, in all scorbutick, scrophulous, and even leprous Eruptions or Foulnesses of the Skin, Glandulous Swellings and Impurities of the Juices, it does more by one Dose, than any other Medicine yet known can by ten.

The Price of this most Noble ANTI-SYPHILICON is but Six Shillings a Pot, which, considering its extraordinary Efficacy, one Pot only being sufficient in most Cases to accomplish the Cure, is not a tenth Part of its Value; and is appointed by the Author to be had only at Mr. RAYNOR's Toyshop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up with a Book of Instructions, by the Perusal of which, all Persons who were ever affected with any Degree of the Venereal Disease, may perfectly understand their own Condition, and certainly know when, and when not, the Venereal Poison is entirely rooted out of their Bodies.

Note, Ask only for a Six Shilling Pot for the Scurvy.

LONDON: Printed for M. COOPER, at the *Globe* in *Pater-Noster-Row*.
